

Call for Presentations

Prominent invited speakers will discuss issues of interest for the attendees. In addition a **limited number of talks** can be accepted for the **BioNanoMed 2010** congress, **2-3 November 2010** in **Krems/Austria**. The final program will be published by August 2010.

The two day congress will bring together academia, industry, governmental and non-governmental institutions to discuss current, emerging and future trends of the converging fields of Nanotechnology, Biotechnology and Medicine.

Important Dates

Deadline of submission of abstracts: 15 August 2010

Congress Website: www.bionanomed.at

Guidelines for Oral Presentations

Allowed time for lectures: keynote lectures 35min + 10min discussion, invited lectures of the scientific program 25 minutes followed by a 5 minutes discussion, contributed lectures 15min + 5 min discussion. **All presentations will be in English.**

1) INSTRUCTIONS FOR ABSTRACTS

The main topics for contributions to be submitted are:

Nanotechnology: New frontiers in Medicine & Biology

Topics related to the following areas will be addressed:

TOPICS

- Nanoparticles / Nanocarriers
- Nanostructured Materials
- Nanotoxicology
- Synthetic Biology

ROUND TABLE SESSION

The Future of Nanomedicine: *Current Status and Future Prospects of Nanomedicine*

SPECIAL SYMPOSIUM

Promises kept? *Where are the Products for Medical Application?*

Abstracts are now invited!

The abstract should clearly describe the objectives, results and conclusion of the work undertaken with particular emphasis on the novel aspects of the work.

All abstracts will be peer-reviewed by a high-level technical committee. Abstracts are now invited!

Your abstract submission must include all of the following:

1. PAPER TITLE

2. AUTHORS (principal author first). Must include authors' names, affiliations and email address of the corresponding author.

3. ABSTRACT TEXT Half page maximum. Accepted abstracts will be included in the conference documents. Please submit only half page abstracts that are suitable for publication and include supporting data (graphs, diagrams, drawings, photos) of the presented research.

(Arial Narrow 11 pt used throughout, with title in bold).

Please remember to spell check your entire paper!

2) CONDITIONS OF ACCEPTANCE

- Only original material should be submitted.
- Commercial papers and papers with no new research/development content will not be accepted
- Exhibition opportunities available www.bionanomed.at → **Exhibition/Sponsors**
- Abstracts should contain enough detail to clearly convey the approach and the results of the research.
- By submitting your abstract you agree that all permissions have been approved, and authorize the organisers of BioNanoMed 2010 to circulate your abstract for review and selection purposes and if it is accepted, to publish your abstract in congress documentation. Authors are required to attend the conference to present their work. Papers will not be published where no author attends the meeting!
Please send your abstract to: office@bionanomed.at

3) AUTHORS' BIOGRAPHY

For the introduction of the Author we need a short CV (max 15 lines).

This CV should include:

- exact name of the author and declaration of the academic title
- present position, exact name and address of the current institution/company
- exact contact address
- education
- research or working experience/expertise
- present field of R&D

4) INSTRUCTIONS FOR SPEAKERS

In order to ensure that your presentation will run smoothly, please find below some recommendations. A fully equipped *Conference Room* with highly skilled AV-computer technicians will be at your service. Experience has shown that many problems can be avoided if some simple measures are taken into account when preparing the presentation. This will reduce the last-minute stress considerably.

Please look for the technical crew, as soon as possible, but not later than 30 minutes before your session starts (you can find the technical crew at the registration desk, please don't hesitate to ask the organisers).

Our technical staff will be at your service. The presentation will be loaded onto our computers and double-checked.

Our presentation computers are operated on Windows XP professional (SP2). We provide Microsoft PowerPoint 2007).

PLEASE CONSIDER THE FOLLOWING RECOMMENDATIONS

1. Use Microsoft Powerpoint.

2. Use high optical contrast between the colours of the background and the text.

Dark text on a light background, light text on a dark background. Some of the predefined "design templates" do NOT give a good result when projected.

3. Use simple text "fonts".

The "ideal" text fonts are Arial and Tahoma (as opposed to e.g. Times). They are easy to read. Do not make the text too small.

4. Images

Size and resolution: Always use a picture enhancement programme to change the resolution and size of your picture to "72 dpi" and "1.024 x 768 pixels". *Picture type:* When you've adjusted picture resolution and size, save the picture to your disk as JPG file (avoid TIFF or BMP).

5. Movies

MOV or Quicktime formatted videos cannot be integrated into MS Powerpoint presentations.

Ideally, video files should be saved in the WMV format.

6. Saving your presentation

Save your presentation and all video and sound files to a removable storage. Videos and sound files are NOT embedded in your presentation, so you should bring them with you.

The easiest way is:

1. Create a separate directory for your presentation
2. Copy all the video and sound files as well as the pictures you will use in your presentation, into this directory
3. Create your Powerpoint presentation, using the files you copied into this directory
4. Save your presentation also into this directory

If you have any other questions please do not hesitate to contact us at office@bionanomed.at.
